# ANNUAL REPORT 2024- 2025

---

JAHANDAD SOCIETY FOR COMMUNITY DEVELOPMENT

JAHANDAD SOCIETY FOR COMMUNITY DEVELOPMENT(JSCD)

### **President's Message:**

It gives me great pleasure to present the Annual Report of the Jahandad Society for Community Development (JSCD) for the fiscal year 2024–2025. This year marks another period of meaningful progress and continued dedication to our mission of serving humanity and fostering sustainable community development across Pakistan.

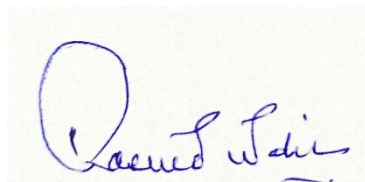

Since its establishment in 2002, JSCD has remained steadfast in its commitment to addressing the needs of underprivileged populations, particularly in geographically and socioeconomically disadvantaged areas. Over the past 23 years, the organization has demonstrated resilience and adaptability, achieving measurable impact in the fields of health, education, economic empowerment, and the socio-economic upliftment of marginalized groups, especially women and children.

The achievements highlighted in this report reflect the collective efforts of our devoted staff, committed partners, and valued stakeholders. Their professionalism, collaboration, and shared commitment have been instrumental in advancing our organizational goals and ensuring the effective implementation of our programs. I extend my sincere appreciation to each of them for their unwavering support.

At JSCD, we firmly believe that strategic partnerships and a shared sense of purpose are essential to achieving sustainable development. The cooperation of our partners and supporters has enabled us to optimize resources, enhance program effectiveness, and deliver long-term benefits to the communities we serve.

As we move forward, JSCD remains committed to strengthening institutional capacity, expanding strategic collaborations, and advancing innovative solutions that contribute to inclusive growth and social equity. Together, we will continue to work toward a more just, resilient, and empowered society.

With appreciation and best regards,

**Raashid Nabi Malik**  
**President, JSCD**

# FREE FOOD PROGRAM

## FOOD PROGRAM AT SGRH

One of the most pressing challenges confronting Pakistan today is the widespread prevalence of malnutrition, driven by deep-rooted systemic issues such as poverty, inadequate food consumption, and limited access to nutritionally balanced diets. The country continues to record some of the highest rates of malnutrition globally, a multifaceted issue with far-reaching implications. Nutritional deficiencies including those of protein, iodine, and other essential nutrients contribute to a persistent cycle of poor health outcomes.

Maternal malnutrition, in particular, exacerbates this challenge. Undernourished mothers often give birth to underweight children who face lifelong nutritional deficiencies, perpetuating an intergenerational cycle of deprivation. It is important to note that malnutrition does not stem solely from inadequate dietary intake; it is also closely linked to household food insecurity, insufficient maternal and childcare practices, and inadequate health and environmental services.

In recognition of this urgent need, the Jahandad Society for Community Development (JSCD) has taken a proactive and compassionate approach by providing quality food to vulnerable populations. Since 2000, JSCD has been successfully operating a Free Food Program at Sir Ganga Ram Hospital (SGRH) in Lahore, serving nutritious meals to over 800 patients twice daily. This initiative also extends to children receiving treatment for thalassemia at the hospital's Thalassemia Center.

The sustainability of this vital program has been made possible through the generous support of philanthropists and well-wishers who contribute regularly to JSCD's welfare activities. Meals are prepared in a purpose-built kitchen managed by a dedicated team of 12 staff members, including 6 cooks, 4 helpers, a store in-charge, and a supervisor. To uphold quality and efficiency, JSCD conducts periodic client satisfaction surveys, which consistently indicate a high level of satisfaction among beneficiaries regarding both the quality and quantity of food provided.

Through this initiative, JSCD continues to reaffirm its commitment to alleviating hunger and improving the nutritional well-being of those most in need one meal at a time.

## RATION TO POOR FAMILIES

Providing free rations to underprivileged families in Lahore remains one of the key welfare initiatives of the Jahandad Society for Community Development (JSCD). During the year 2024–2025, a total of 130 families were registered under this program to receive monthly ration packages designed to meet their basic nutritional requirements.

Each package comprised essential food staples, including:

- Flour: 10 kg
- Pulses: 2 kg
- Rice: 4 kg
- Tea: 200 g
- Sugar: 2 kg
- Ghee: 2 kg

This initiative underscores JSCD's ongoing commitment to combating food insecurity and supporting vulnerable households by ensuring consistent access to essential nutrition and daily necessities.

## DISTRIBUTION OF RATION PACKS IN THE HOLY MONTH OF RAMZAN

During the Holy Month of Ramzan, JSCD launched a meaningful initiative to support underprivileged families by distributing ration packs. Recognizing the heightened challenges many face during this sacred period, our team mobilized resources to provide essential food items, enabling families to observe their fasts with dignity and peace of mind. This effort was made possible through the generous support of our donors and the dedicated work of our volunteers, who ensured aid reached even remote and underserved communities. Through this program, we were able to bring relief to numerous households, reinforcing our commitment to serving those in need.

Each family received a thoughtfully prepared package of essential food items to meet their nutritional requirements, including:

- Flour: 10 kg
- Pulses: 2 kg
- Rice: 4 kg
- Tea: 200 g
- Sugar: 2 kg
- Ghee: 2 kg
- Besan: 2 kg
- Jam-e-Shirin: 2 × 800 ml bottles

## **EDUCATION SCHOLARSHIP PROGRAM**

Since 2004, JSCD has been dedicated to empowering young individuals through the JSCD Scholars Program, which provides support to students and aspiring professionals across diverse fields. Made possible by the generosity of private donors, this program has positively impacted countless young men and women over the years.

At the program's inception, 10 talented young individuals demonstrating strong potential for professional growth received funding for their degrees. In addition, 05 high-achieving matriculation students, who lacked the financial means to continue their education, were also supported through this initiative.

In 2024–2025, JSCD continued its scholarship efforts, awarding educational scholarships to students in need. This ongoing commitment reflects our belief in the transformative power of education and our dedication to nurturing the talents and potential of the next generation.

## HEALTH

### Fistula Repair Project

In partnership with the Fistula Foundation and the Pakistan National Forum for Women's Health (PNFWH), JSCD has been actively working to prevent and treat obstetric fistula in Pakistan. Fistula, often caused by prolonged or obstructed labor, is a debilitating condition that leads to continuous leakage of urine and feces due to tissue damage in the vagina. It brings lifelong physical discomfort, social stigma, and emotional distress to thousands of women. Fortunately, fistula can be repaired by skilled surgeons and, more importantly, prevented through proper medical care during childbirth.

According to UN reports, Pakistan records an estimated 4,000–5,000 new cases of fistula annually, particularly in rural areas. In response, JSCD, together with its partners, has implemented targeted initiatives to address this pressing issue.

#### Fistula Repair Centre

Since 2006, JSCD has served as the implementing partner of the Fistula Repair Centre, initially established at Lady Willingdon Hospital, Lahore, and now relocated to Central Park Medical and Teaching Hospital, Lahore. The center caters to 36 densely populated districts, providing free-of-charge services to women in need. It features a fully equipped operation theater dedicated to fistula repair, staffed by trained consultants performing surgeries six days a week. A 10-bed inpatient ward and a separate outpatient facility for post-operative care ensure comprehensive support for patients.

During 2024–2025, the Fistula Repair Centre treated 109 patients, including 96 cases of Vesicovaginal Fistula (VVF) and 13 cases of Rectovaginal Fistula (RVF). This initiative continues to offer hope and restore dignity to women affected by this debilitating condition.

## **JSCD committees**

### **Executive Committee**

<b>Name</b>	<b>Designation</b>
Rashid Nabi Malik	President
Baligha Arif	Senior Vice President
Zulfiqar Nabi Malik	Vice President
Ali Ammar	Secretary General
Maaz Ferouz Janjua	Finance Secretary
Zahid Choudhary	Joint Secretary
Mizna Zulfiqar	Propaganda and Publication Secretary
Haris Khalid	Executive Committee Member
Sadiq Yousaf Yalmaz	Executive Committee Member

The JSCD Executive Committee is the supreme governing body responsible for overseeing all operations. Elected at the annual general meeting for a two-year term, the committee meets quarterly to ensure that JSCD is making progress toward its goals and fulfilling its mission of community development.
